SUMMARY

Software Engineer with 2+ years of experience in HTML, CSS, JavaScript, React.js, Node.js, MongoDB, MySQL, AWS, and React-Redux. Skilled in building and optimizing scalable web applications, enhancing user experiences, and troubleshooting complex code issues. Committed to delivering efficient, high-quality solutions across both frontend and backend development.

SKILLS

Frontend	:	HTML, CSS, Bootstrap, JavaScript, Tailwind CSS, ReactJS, Material Ui, TypeScript
Backend	:	NodeJs, ExpressJs, REST API
State Management	:	Redux, Redux Toolkit
Database	:	MongoDB, MYSQL, DynamoDB
Version Control	:	Git, Github
Markup/XML	:	JSXML
Cloud & DevOps	:	Amazon S3, AWS Lambda, SQS, SNS, SES, Amazon Cognito, AWS AppSync, Jenkins

WORK EXPERIENCE

Voltuswave Technologies
Software Engineer, Hyderabad, India **Dec 2024 — Nov 2026**

Amura **Oct 2025 — Nov 2026**

- Contributed to the development of a health and wellness application for Amura Health, focusing on personalized nutrition, diagnostics, and remote coaching.
- Developed frontend modules with React.js and backend services with Node.js and Express.js, ensuring secure, seamless, and high-performing data flow.
- Designed and managed AWS DynamoDB schemas while integrating AWS services like EC2, S3, and Lambda for scalable and automated deployment
- Enhanced application performance and security through optimized API design, caching strategies, and AWS infrastructure best practices.
- Collaborated with designers, healthcare experts, and cross-functional teams in an agile setup to deliver user-centric, reliable product features.
- **Tech Stack:** React, Node.js, TypeScriptAWS,Express,Redux,MUI

QmentisAI **Mar 2025 — Sep 2025**

- QMentisAI is used by business analysts and testers to ensure high-quality testing of application
- It accelerates intelligent test design, script generation, and defect documentation, enabling faster and more efficient testing processes.
- Utilizes various AI models to enhance test efficiency, including adaptive scripts and self-healing capabilities.
- Automates routine testing tasks, improving productivity and throughput.
- Seamlessly integrates into CI/CD pipelines, DevOps, and test management systems for continuous and efficient testing.
- Ensures end-to-end testing continuity, resulting in quicker and more effective software delivery.
- **Tech Stack:** React, Node.js, TypeScript,Lambda,SQS,Step Functions,MySQL,Express,Redux,Tailwind CSS

VoltusFreight **Dec 2024 — Feb 2025**

- VoltusFreight application refers to goods or cargo transported for commercial purposes through various modes like air, sea, land, or rail, typically managed by freight forwarders for efficient and timely delivery.
- Developed an adaptive card designer with drag-and-drop functionality for creating adaptive cards, providing users an easy way to design and integrate responsive cards.
- Worked on a React-based scheduler for tracking cargo from initial pickup to final delivery, including graphical visualization for better cargo management.
- Integrated Stripe payment system into the platform for smooth and secure payment processing.
- Worked on AI-driven email automation for getting quotations from agents to customers via email, specifically integrating with WorldZone for seamless communication.
- Created a React-based calendar feature for scheduling events within the platform, improving organization and planning for the team.
- **Tech Stack:** React, Node.js, TypeScript,Lambda,SQS,SES,SNS,MySQL,Express,Redux,Tailwind CSS

IT Monks Solutions Pvt Ltd
Junior Software Engineer, Hyderabad, India **Jan 2024 — Jun 2024**

- Developed the company website from the ground up, ensuring smooth functionality and user engagement with integrated OTP verification for user authentication.
- Involved in frontend development, focusing on creating responsive and visually appealing web pages
- Worked on backend development, handling server-side logic and data flow for reliable performance.
- Managed database design and integration to ensure secure and efficient data management.
- Collaborated with the team to deliver a fully functional and optimized website that aligned with company requirements.
- **Tech Stack:** React, Node.js, JavaScript, Redux-toolkit,Express.Js,Node.Js,MongoDB

EDUCATION

College of Dairy Technology, **Kamareddy, India** - *Bachelor Of Technology, Dairy Technology - (GPA: 8.13)* **Apr 2019 — Jul 2023**

Narayana Junior College, **Hyderabad, India** - *Intermediate, MPC - (GPA: 9.76)* **Apr 2017 — Mar 2019**

Adarsha Vidyalayam, **Dubbak, India** - *Secondary School Of Education - (GPA: 9.7)* **Jun 2016 — Mar 2017**
